Subject: Endorsement for Gregory Peri, Candidate for Ward 5 Council

To the King Township Community,

Please accept this letter as my formal endorsement of Gregory Peri for King Township Council in Ward 5, on behalf of the team at AccessNow.

We have had the opportunity to work directly with Gregory over the past several years, both through accessibility mapping initiatives and through accessibility network conferences. This ongoing work is aimed at helping both residents and visitors better understand and navigate accessibility within the community. Our sustained partnership is a direct reflection of Gregory's unwavering commitment to this space.

Gregory brings a rare combination of credibility and hands-on commitment to this work. He holds professional credentials as a Rick Hansen Foundation Accessibility Professional and has built a career in municipal government grounded in real relationships with the accessibility and inclusion community. What stands out most in working alongside him is that he is a fantastic listener who doesn't stop at good intentions. He follows through until people actually feel the difference. That follow-through has meant expanding inclusive programming and deepening partnerships with organizations doing this work on the ground.

Our own collaboration has given us a close-up view of this. The work directly supports older adults and persons with disabilities by making sure the spaces they rely on every day are ones they can actually use, not just ones that meet a minimum standard on paper.

In all of our collaborations, Gregory has shown genuine follow through, a sustained commitment to the people he serves, and a real understanding of what it takes to make spaces inclusive in practice, not just in principle. I am confident that his dedication and practical expertise will serve Ward 5 and the broader township exceptionally well.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Marriott", written over a light blue rectangular background.

Jonathan Marriott
